Date: 08/12/2020

Time: 12:00 PM

Place: Seminar Room

Attendees:

S.No.	Name	Designation	Signature
1.	KIRAN CHOUDHARY	ASSISTANT PROFESSOR	
2.	RAKESH DHAKA	ASSISTANT PROFESSOR	
3.	CHANDRASHEKHAR SINGH	ASSISTANT PROFESSOR	
4.	HARISH KUMAR	ASSISTANT PROFESSOR	
5.	DR. RAMDAS YADAV	PROFESSOR	

Agenda:

1. To organize Alumni, meet and farewell for the final year students.
2. To conduct student exit survey.
3. To discuss important questions for examination.
4. Soft skills training for placement and internship.
5. Analysis of slow learner and their mentoring.
6. To discuss about the conduction of practical examination.
7. Submission of dissertation and projects by students.
8. To organize seminars by final year students.
9. To conduct remedial classes for weak learners on difficult topics on Saturdays.
10. To organize science exhibition, Panache, departmental quizzes, Industrial trips, surveys etc.
11. To organize Value added courses for Semester 2nd Students

Minutes:

The meeting was called to order by Principal at 12 PM in Seminar Room. The attendees were welcomed, and the agenda for the meeting was presented.

1. **To organize Alumni, meet and farewell for the final year students:** The Principal proposed organizing an Alumni meet to facilitate interactions between current students and successful graduates. The event will serve as an opportunity for networking, mentorship, and sharing experiences. Additionally, a farewell program will be arranged to bid farewell to the final year students and celebrate their achievements. The specific dates and details of these events will be decided in consultation with the concerned faculty members and student representatives.
2. **To conduct student exit survey:** The Principal suggested conducting a student exit survey to gather feedback from graduating students. The survey will focus on their overall

Behind Kalwar Police Station, Kalwar, Jaipur

college experience, including academic programs, infrastructure, faculty support, extracurricular activities, and placement opportunities. The feedback received will help in assessing the college's strengths and areas for improvement.

3. **To discuss important questions for examination:** The Principal highlighted the need to discuss and finalize the important questions for the upcoming University examination. Faculty members were encouraged to collaborate and share their expertise in determining the key topics and questions that students should focus on during their exam preparation. This will ensure that students are well-prepared for the examination.
4. **Soft skills training for placement and internship:** To enhance students' employability and prepare them for the professional world, the Principal proposed conducting soft skills training programs. These programs will focus on improving students' Environmental Chemistry, teamwork abilities, time management, and overall personality development.
5. The training will specifically target placement and internship opportunities, equipping students with the necessary skills to succeed in their future careers.
6. **Analysis of slow learners and their mentoring:** The Principal emphasized the importance of identifying and addressing the needs of slow learners. It was suggested to analyze the performance and progress of such students and provide them with personalized mentoring and support. Faculty members were requested to closely monitor the academic progress of slow learners and implement strategies to help them overcome their challenges.
7. **To discuss the conduction of practical examination:** The Principal proposed a discussion on the conduction of practical examinations. The logistics, evaluation criteria, and assessment procedures for the practical exams will be determined and communicated to the faculty members. It was emphasized that the practical examinations should provide a fair and comprehensive assessment of students' practical knowledge and skills.
8. **Submission of dissertations and projects by students:** The Principal reminded the faculty members about the submission deadline for dissertations and projects by the students. Clear instructions and guidelines regarding the format, content, and submission process should be provided to the students to ensure a smooth submission process.
9. **To organize seminars by final year students:** To showcase the research and academic achievements of the final year students, the Principal suggested organizing seminars where they can present their findings and share their knowledge with the college community. This will provide a platform for intellectual exchange and foster a culture of academic engagement.
10. **To conduct remedial classes for weak learners on difficult topics on Saturdays:** The Principal recommended organizing remedial classes on Saturdays to provide additional support to weak learners. These classes will focus on addressing difficult topics.

Behind Kalwar Police Station, Kalwar, Jaipur

concepts, helping students overcome their challenges and improve their understanding. Faculty members were encouraged to volunteer and contribute to these remedial classes.

11. To organize science exhibition, Panache, departmental quizzes, industrial trips, surveys, etc.: The Principal proposed organizing various extracurricular activities and events, such as science exhibitions, cultural events like Panache, departmental quizzes, industrial trips, and surveys. These activities will provide students with opportunities for practical learning, creative expression, and holistic development.

12. To organize Value added courses for Semester 2nd Students

The Principal elaborated on the importance of providing value-added courses to enhance the academic experience and skill set of students. Various suggestions were put forth regarding the types of value-added courses that could be beneficial for Semester 2nd students. Suggestions included courses related to Environmental Chemistry, coding, financial literacy, and career development.

Action Items:

1. The Principal will coordinate with faculty members and student representatives to finalize the dates and details of the Alumni meet and farewell program.
2. Faculty members will develop and conduct the student exit survey, ensuring comprehensive feedback is collected.
3. Faculty members will collaborate to finalize important questions for the upcoming UOR examination.
4. The administration will organize soft skills training programs, focusing on placement and internship opportunities.
5. Faculty members will identify slow learners, provide personalized mentoring, and monitor their progress.
6. Faculty members will discuss and plan the conduction of UOR practical examinations, ensuring fairness and thorough assessment.
7. The administration will remind students about the submission deadline for dissertations and projects, providing clear guidelines.
8. The administration will facilitate the organization of seminars by final year students, allowing them to showcase their research and knowledge.
9. Faculty members will schedule remedial classes for weak learners on Saturdays, focusing on difficult topics.
10. The administration will coordinate the organization of science exhibitions, Panache, departmental quizzes, industrial trips, surveys, and other extracurricular activities.
11. The Academic Committee will compile a list of potential value-added courses based on the suggestions provided during the meeting.

These action items will be followed up on in subsequent meetings to track progress and ensure the successful implementation of the proposed agendas.

Closing:

Principal expressed gratitude to the staff members for their active participation and valuable input during the meeting. It was emphasized that their collaboration and dedication are essential in implementing the discussed agendas successfully. The staff members were encouraged to further develop and refine these proposals and work collectively towards the holistic development of the students.

Program

Expected Outcomes

Expected outcomes of Environmental Chemistry Program course include:

- Understanding of Environmental Systems: Students comprehend the interactions between chemical processes and the environment, including atmospheric, aquatic, and soil systems.
- Knowledge of Pollutants and Contaminants: Students identify sources, fate, and effects of pollutants such as heavy metals, pesticides, and industrial chemicals on environmental health.
- Proficiency in Analytical Techniques: Students develop skills in chemical analysis methods for monitoring and assessing environmental pollutants, including spectroscopy, chromatography, and mass spectrometry.
- Awareness of Global Environmental Issues: Students explore pressing environmental challenges such as air and water pollution, climate change, and ecosystem degradation, and examine their chemical implications.
- Application of Green Chemistry Principles: Students learn about sustainable practices and green chemistry solutions to minimize pollution, reduce waste, and promote environmental sustainability.
- Competence in Environmental Risk Assessment: Students assess the risks associated with chemical pollutants and contaminants, and propose strategies for mitigation and remediation.
- Understanding of Environmental Regulations: Students comprehend environmental laws, regulations, and policies governing chemical pollutants, and their roles in environmental protection and management.
- Collaboration and Communication Skills: Students engage in interdisciplinary collaboration and communicate effectively with stakeholders to address environmental challenges and advocate for sustainable solutions.
- Critical Thinking and Problem-Solving Abilities: Students analyze complex environmental problems, evaluate scientific evidence, and develop innovative solutions informed by environmental chemistry principles.
- Preparation for Environmental Careers: Students are prepared for careers in environmental chemistry, environmental consulting, regulatory agencies, research institutions, and other fields, contributing to the protection and preservation of the environment.

Subject	Environmental Chemistry
CO1	Students gain a deep understanding of chemical processes in the environment, equipping them to analyze and address complex environmental challenges with a solid scientific foundation.
CO2	Through laboratory work and field studies, students develop practical skills in chemical analysis, environmental monitoring, and pollution control, enhancing their employability in various environmental science and engineering fields.
CO3	Graduates of Environmental Chemistry programs are well-positioned to develop sustainable solutions to environmental problems, including pollution prevention, waste management, and resource conservation, contributing to a healthier and more sustainable planet.

Syllabus: Environmental Chemistry

Unit 1: Introduction to Environmental Chemistry

- Overview of environmental chemistry and its importance
- Basic principles of chemistry relevant to the environment
- Sources, transport, and fate of pollutants in the environment
- Environmental impact of human activities on air, water, and soil quality

Unit 2: Atmospheric Chemistry

- Composition and structure of the Earth's atmosphere
- Chemical reactions and processes in the atmosphere, including air pollution formation and dispersion
- Major air pollutants: sources, effects, and regulation
- Climate change and greenhouse gas chemistry

Unit 3: Aquatic Chemistry

- Chemical properties of natural waters: pH, alkalinity, hardness, and dissolved oxygen
- Pollutants in water systems: nutrients, heavy metals, pesticides, and organic contaminants
- Water treatment processes and technologies
- Eutrophication, acidification, and other aquatic ecosystem impacts

Unit 4: Soil Chemistry

- Composition and properties of soil: pH, texture, and organic matter content
- Chemical processes in soils: ion exchange, adsorption, and mineral weathering
- Soil pollution: sources, fate, and remediation techniques
- Soil fertility and nutrient management

Unit 5: Environmental Analysis and Monitoring

- Analytical techniques for environmental monitoring and analysis: spectroscopy, chromatography, and mass spectrometry
- Sampling methods and quality assurance in environmental analysis
- Environmental risk assessment and management
- Case studies and applications of environmental chemistry principles
